

## DYSPOUR

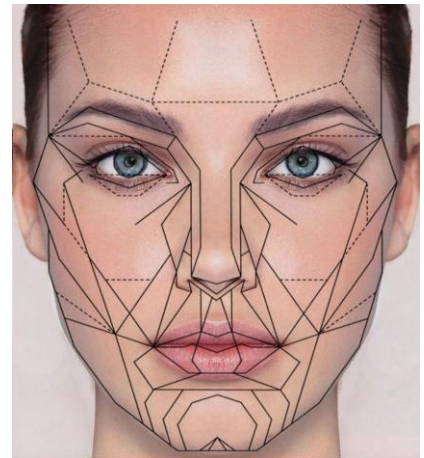

Similar to Botox, Dysport is an injectable botulinum type A toxin which improves the appearance of lines by paralyzing the muscles. The difference many people notice between Dysport and Botox is that Dysport starts working sooner than Botox. Recent studies have shown that Dysport and Botox have the same longevity, though it may vary from person to person.

We offer Dysport for \$8.00/unit.

## NUCEIVA

Nuceiva (Jeveau in the USA) has been created only for facial cosmetic applications. Like Botox and Dysport, Nuceiva contains the active ingredient botulinum type A. It works by relaxing muscles beneath the skin, thus creating a smoother appearance. Individuals respond differently to the different brands of botulinum toxin, so there is no guarantee of specific longevity with any of these products. Moreover, many factors that can effect it, such as metabolism, sun exposure, exercise and body tolerance. Nuceiva has been shown to begin working in 5 to 7 days and last 15% to 40% longer than both Botox and Dysport in recent studies.

We offer Nuceiva for \$9.00/unit.

## COSMETIC BOTOX®

Botox® can get expensive in Calgary, we offer Botox® for only \$8.00/unit when the average price in south Calgary is \$10-15/unit. We share our space with Sundance Wellness which means less overhead costs for us, and we pass on our savings to you. Why pay more for fancy buildings when you get the same high quality product?

Our injectors have had direct, one on one training with Allergan, the makers of Botox and are the most passionate and skilled injectors you will find.

## BOTOX® FOR MIGRAINES

If you suffer from migraines and have more than 15 headache days per month, you might benefit from Botox® to improve your quality of life. Dr. Brian Kim is one of the few doctors in Calgary who have trained in injecting Botox® for Migraines.

**Here is how it works:** Make an appointment with your doctor and get a prescription for Botox®. If you do not have a family doctor, you can make an appointment with Dr. Kim who will assess you and give you a prescription. Once you have a prescription filled, make an appointment with Dr. Kim at our office. Bring your FILLED prescription with you to your appointment. Our doctor charges a \$100 injection fee that is not covered by AHC.

## **BOTOX® FOR HYPERHIDROISIS:**

If you suffer from excessive sweating, Botox® might be a great solution for you. Seeing a medical doctor who knows how to inject for hyperhidrosis is a cost effective way of getting the procedure done. Alberta Health Care does not cover the injection fee for a doctor to inject for hyperhidrosis, however, you can get a prescription from your doctor for the Botox® and have it injected by our doctor for a \$100 injecting fee. The average cost savings of seeing an MD for this procedure is 50 to 100% savings compared to if you went to a cosmetic injecting nurse.
